15	I-95	3	Benjamin W. Bright	ben.bright@dot.state.fl.us	<p>Consider changing the primary route for SR 206 – Exit 305 to SR 207 – Exit 311 to West on SR 206 to SR 207 North for NB traffic and South on SR 207 to SR 206 East for SB traffic:</p> <ul style="list-style-type: none"> • The current route is along some of the busiest roadways in the area. At one time, the intersection of US 1 & SR 312 was the busiest in the County. SR 207 & SR 206 west of I-95 is rural and has lower traffic. • The current route passes 4 public schools (Pedro Menendez High, Gamble Rogers Middle, Hartley Elementary and Mason Elementary) and very close to a 5th (Osceola Elementary) all of which use the roadways in the primary route for school traffic. The alternate route passes 1 public school (Southwoods Elementary). • The current NB route requires 5 turns total, 3 lefts and 2 rights. The proposed NB route requires 3 turns total, 2 lefts and 1 right. • The current SB route requires 5 turns total, 2 lefts and 3 rights. The proposed SB route requires 3 turns total, 1 left and 2 rights. • The current route is 15 miles but is estimated to take 29 minutes to travel. The proposed route is 23 miles but is estimated to take 24 minutes to travel. 	<p>Change current primary route to secondary Create new primary route along SR 206 to SR 207 (it is not recommended by St. Augustine maintenance to use CR 305); SR 206 at SR 207 is signalized.</p>
16	I-75	2	Cindy Dunkle	Cindy.Dunkle@dot.state.fl.us	<p>We have been contacted by Williston Police Department in reference to these two closures. Twice in the last few months they have been getting the diverted traffic coming down SR 121 directly through the town of Williston. This has become a problem for this small town and the number of officers they have available to help deal with this amount of traffic. Also, the intersection of SR 121 and SR 45 is not ideal. It comes together at an angle and is not signalized, causing a buildup on SR121. Police Chief, Dennis Strow, has offered an alternate suggestion to try and get traffic from SR 121 to CR 331 and back to SR 500 to keep the diversion away from the downtown area where it bottlenecks.</p> <p>However, after riding this route, CR 331 is narrow and also not ideal to handle this kind of traffic. Please look at this diversion route and offer any suggestions to help address Williston's concerns.</p>	<p>Pending</p>

18	I-75	6	Sgt. Carl Newsome		<p>The only concern for Alachua is that we are taking a 3 lane interstate to a 2 lane US Highway to a 1 lane county road. There is also a right turn onto county Cr241 that has no SB turning lane and during previous incidents the 48- 54' trucks cannot turn on to 241 without blocking the turning lane on 241 NB. This plan also takes the traffic flow in to a school zone twice a day. If traffic was to continue on US 441 SB into Gainesville there would be signage and traffic signals that would direct traffic to I75 and they would remain on a multi lane roadway. Which would reduce manual traffic control, as well as offer numerous reentry points to I75 and keep the heavy truck traffic out of a school zone .</p>	<p>Option 1: Add truck restriction note for secondary route Option 2: Remove secondary route Option 3: Change secondary route from CR 241 to US 41/US 27</p>
