

First Coast TIM Team Meeting

Tuesday, September 17, 2019

Meeting Minutes

The list of attendees, agenda, and meeting handouts are attached to these meeting minutes.

Introductions and TIM Updates

- Dee Dee Crews opened the meeting and welcomed everyone.
- Attendees introduced themselves to the group.
- The purpose of this meeting is to improve Communications, Coordination, Cooperation and Collaboration between all TIM agency partners, as well as to improve safety and congestion on the highways.
- The July 2019 First Coast TIM Team Meeting Minutes were sent to the Team previously, and receiving no comments, they stand as approved.

Overland Bridge and Your 10 & 95 Project Updates by Daryl Goss

- Beams are still being set for the span across the St. Johns River. The foundations in the river should be finished soon.
- Sound walls are being installed on Roosevelt on the northbound side along US 17.
- Bill Kays asked Daryl to mention that tow truck drivers who respond to accidents on the I-10/I-95 project aren't always picking up all the vehicle parts/debris. The construction crews are having to complete this task before opening the lanes.

Construction Project Update by Daryl Goss

- There is an upcoming detour on I-95 southbound at the north interchange. This detour will be overnight October 6th through the 10th.

Emergency Operations Update by Ed Ward

- There was very little impact from Hurricane Dorian, mainly just issues with beach erosion.
- Hurricane Humberto stayed out at sea with no impacts to Florida.
- Dee Dee mentioned Road Rangers were patrolling 24/7 in the days leading up to Hurricane Dorian due to the possibility of people evacuating because of its uncertain track.

ITS Update/ITS Projects – 511/RTMC by Craig Carnes and Jason Evans

- The I-10 Project from SR 23 to Tallahassee is still under construction. CCTVs are operational from Jacksonville to I-75 and are being monitored by the RTMC. The remaining devices are being installed. These devices include CCTVs from I-75 to Tallahassee, and DMS and MVDS throughout the corridor. This project should be complete by Spring of next year.
- All current and upcoming roadway projects need to protect and/or relocate ITS so the designers, contractors, and CEIs need to pay attention. The ITS group is working to make sure everyone is aware at all stages of design and construction.
- Jason noted that the 511 system was updated just before Hurricane Dorian. This update makes it easier for the TMC to show closures on arterial roadways.

Incident Debrief

The Team discussed the following:

- The Team had a discussion regarding the incident on July 19th where a semi carrying milk crashed with a semi carrying laundry detergent. This caused the roadway to be slippery and difficult to clean.
- The Team discussed the incident on July 31st where the car hauler caught fire and the long delay associated with having to pave the roadway to repair it.
- Greg Gaylord described in detail an issue the towing community is having with uninsured motorists, especially commercial carriers.

Performance Measures by Sherrell Lall

- Sherrell provided the team with a Performance Measures presentation.

Incident Review by Gerald Smith with Jorgensen

- Gerald provided the Team with a presentation reviewing several incidents.

Express Lanes/FCE/Road Ranger Update by Dee Dee Crews

- The Express Lanes currently have a Road Ranger Monday through Friday from 6 a.m. to 7 p.m. along with a tow truck. The FHP hire-back's coverage time is 6 a.m. to 10 a.m., and then 3 p.m. to 7 p.m.
- There is a Road Ranger on the First Coast Expressway Monday through Friday from 6:30 a.m. to 6:30 p.m.

Open Forum

- David Sinn with FDOT Environmental mentioned needing a report on the incident with the overturned tanker truck causing spillage into the drainage system. Helen Gainey with City of Jacksonville Environmental said she would provide him with the report.

Announcements

- If anyone would like to volunteer to give a presentation during an upcoming TIM Team meeting, please contact Dee Dee Crews at DeeDee.Crews@dot.state.fl.us.
- There will be a National Traffic Incident Management Responder Train-the-Trainer Session held tomorrow, September 18th at the RTMC in Jacksonville. There are only 20 open spots for this training, so please limit your group/agencies attendees to one person so that we can have as many of our members represented within the training. Multiple emails were sent to both TIM Teams with more information and instructions on how to register.
- If anyone is interested in the SHRP2 Incident Management Training Course, please contact Craig Carnes at ccarnes@metriceng.com. He will work with any agencies' schedules, including nights and weekends to make the training course available. He can conduct training for groups of ten or more students.
- The RISC debrief meeting will be held directly after the TIM meeting. Anyone involved in any RISC events are asked to stay and attend to discuss.
- The next meeting will be held November 19, 2019 at the Regional Transportation Management Center (RTMC) – 980 N. Jefferson St., Jacksonville, Florida.

MEETING ADJOURNED

MISSION: The Florida Department of Transportation District 2 Traffic Incident Management Teams through partnering efforts strive to continuously reduce incident scene clearance times to deter congestion and improve safety. The Teams’ objective is to exceed the Open Roads Policy thus ensuring mobility, economic prosperity, and quality of life.

VISION: Through cooperation, communication and training the Teams intend to reduce incident scene clearance times by 10% each year.
