

First Coast TIM Team Meeting

Tuesday, November 21st, 2023

Meeting Minutes

The list of attendees, agenda, and meeting handouts are attached to these meeting minutes.

Introductions and TIM Updates

- Dee Dee Crews opened the meeting and welcomed everyone
- Dee Dee stated the purpose of the meeting is to partner together to reduce incident scene clearance times, to deter congestion, and improve safety for everyone on the roadway.
- The September 2023 First Coast TIM Team Meeting Minutes were sent to the Team previously, and receiving no comments, they stand as approved.

Construction Project Update: Nathan Pick

- Milling and resurfacing project on I-295 from Morse Avenue to US-90
 - Currently working on the NB lanes
 - For the duration of construction activities there will be continued lane closures, and the speed limit will be 55 MPH
- Lane shifts and detours are occurring on I-10 due to widening

Emergency Operations Update: Jason Evans

- To date, 6,783,650 cubic yards of debris have been collected along I 10 corridor
 - Equivalent to approximately 6.5 Ben Hill Griffin Stadiums
 - Debris removal operations will continue into January 2024
- For the Thanksgiving Holiday, no roadway lane closures were allowed on Interstates, State Roads, and County Roads from Wednesday, November 22nd, through Sunday, November 26th.
 - Normal work operations resumed on Monday, November 27th.
- Contractors can continue to haul off vegetation as there are time frames in their permits they must adhere to
- Permanent repair of signs, lighting, and fencing to begin in December

Maintenance Operations Update: Jason Evans

- All maintenance offices are prepared to respond during the upcoming holidays

ITS Update/ITS Projects/511/TMC Updates: Craig Carnes/Jason Evans

- Craig Carnes advised that there are smaller ITS Projects occurring throughout the Eastern Side of the District
 - ADMS and CCTV Cameras are being installed along MLK
 - Work is ongoing in the Zoo Parkway/Heckscher Drive area
 - Ongoing issues with the Buckman Bridge ATMS project
 - They are continuing to monitor and assist when possible
- On November 21st, Craig received Electronic Review Comments (ERC) for landscaping projects to ensure the landscaping is not putting anything over existing fiber, and ensuring there is no damage to existing infrastructure

- Also ensuring they will not be planting any large trees that may affect CCTV camera views
- A revision was recently submitted for the I-295 North Interchange
 - A DMS NB on the East Beltway between US-17 and I-95 had a cabinet located at the bottom over an MSE wall, creating no access for any maintenance workers
 - The cabinet is being moved south, near the US-17 overpass
 - An MVDS will be moved in the area between US-17 and I-95 as well
- Jason Evans advised there are three upcoming widening projects
 - The following two projects are looking to start within the next year
 - I-95 from International Golf Parkway to CR-210 (around the County Line)
 - This will consist of outside widening
 - I-295 to JTB
 - This will consist of inside median widening
 - A third widening project will occur on Emerson Street to Atlantic Boulevard, and will begin construction after the other two
 - Outside widening will affect devices in project areas as they have to move and take down certain devices, so the RTMC may be without some devices for certain time periods
- The RTMC is in the process of testing a new Express Lane software
 - Jason advised we won't see anything on the public side
 - The software is being brought up to the 2020 standards
 - Hoping to be tested in the next 1-2 months, and hoping to go live with the software 1-2 months after testing
- The I-10/I-95 project was final accepted mid-October
 - All devices are configured
- The FL511 app update was live as of Mid-September
 - New features have been added, such as links to additional 511 resources, link to quick call *FHP if assistance is needed, and an updated map interface
 - Jason advised that the app did not prompt any of the Team to update, so it is advised to go into the Play Store/App Store and manually update the app to receive the updated features

Performance Measures Presentation: Taylor Rouse

- Taylor Rouse provided the Team with the Performance Measures Presentation.

Open Forum: Team

- Jason advised that the State is looking into an enhancement that will allow the RTMC to use the MVDS that are currently installed along every mile of the interstates to detect Wrong Way Drivers
 - Devices that are currently in place have this capability, however SunGuide doesn't have a way to ingest this data
 - The enhancements should be available in Spring 2024
 - The capability for the MVDS to pick up Wrong Way Drivers is only possible if the MVDS is a hi-definition model, meaning it has two beams
 - If a vehicle is traveling the correct direction, the MVDS will show a positive speed, and if the vehicle is traveling the wrong way, the MVDS will show a negative speed

- Once a negative speed is triggered, the RTMC will know exactly where the vehicle is located on the Interstate, allowing for earlier notification to law enforcement

Announcements

- Next meeting to be held on Tuesday, January 16th, 2024, in the TPO boardroom
 - At this meeting, the Team will be utilizing a new sign-in method which includes a QR code that can be scanned, and all necessary information can be filled out on a phone
 - A blank sign-in sheet will still be provided
- If anyone needs anything or has any questions, please contact Dee Dee Crews at DeeDee.Crews@dot.state.fl.us or (904) 903-2009.

MEETING ADJOURNED

MISSION: The Florida Department of Transportation District 2 Traffic Incident Management Teams through partnering efforts strive to continuously reduce incident scene clearance times to deter congestion and improve safety. The Teams’ objective is to exceed the Open Roads Policy thus ensuring mobility, economic prosperity, and quality of life.

VISION: Through cooperation, communication and training the Teams intend to reduce incident scene clearance times by 10% each year.
