

Alachua Bradford TIM Team Meeting

Wednesday, April 10th, 2024

Meeting Minutes

The list of attendees, agenda, and meeting handouts are attached to these meeting minutes.

Introductions and TIM Updates

- Dee Dee Crews opened the meeting and welcomed everyone.
- Dee Dee stated the purpose of this meeting is to gather everybody together to coordinate and improve cooperation to clear the roadways sooner for everyone's safety and try to figure out ways to improve our roadway clearance times.
- The February Alachua/Bradford TIM Team meeting minutes were sent to the Team previously, and receiving no comments, they stand as approved.

Emergency Operations Update/Maintenance Operations Update: Lola Butler

- As of mid-March, Hurricane Idalia cleanup has been completed.
- The EOC is now working towards getting all hurricane plans updated, with a due date of May 1st.
- FDOT EM has partnered with Suwannee County EM to install Weatherstem at the I-10 Rest Area in Suwannee County
 - Users do not need secured access for this site and can access any live view of weather and events where it is installed.
 - This site can be accessed at the following location: [Weatherstem](#)
- The I-75 bridge repair is still ongoing.
- Landscaping work is currently being completed at the Ellisville Rest Area on I-75 near Lake City.

ITS/511/RTMC Update: Jason Evans

- CCTV cameras are currently being installed at major ramps in Alachua County, including those on and off I-75 where there was little to no video coverage.
 - Approximately six new cameras have been installed in the last few months.
 - CCTV cameras on ramps will be installed on new poles where needed, and CCTV cameras on the interstate will be installed on existing MVDS poles.
- The RTMC is looking at a project to replace the Road Weather Information System (RWIS) sensors in the Paynes Prairie area.
 - Testing is ongoing at the RTMC.
- The ITS Group is looking into a project that will move the fiber on US-441 due to the pull boxes being underwater.
- FL511 is testing out a Connected Vehicles (CV) section of the app that will tie in data from other vehicles and cities that are utilizing smart infrastructure.
 - This will have the ability to warn motorists of upcoming pedestrian crossings, red lights, and Emergency Vehicles (EV) that are in their vicinity.
 - Testing is ongoing in District 5, and a full roll out is likely a year out.
- The RTMC is currently in hurricane season prep, ensuring that all generators are topped off and non-perishable food and other supplies are fully stocked.

Performance Measures Presentation: Arianna Franklin

- Arianna provided the Team with a Performance Measures Presentation.

Incident List: Team

- Dee Dee advised that the following changes can be seen on the incident list:
 - A new HAZMAT column has been added, to identify whether an event required Environmental response.
 - The previously used “Deaths” column has now been updated to read “THI/SBI,” which will be used to identify whether an event had either a Traffic Homicide Investigation (THI) or a Serious Bodily Injury (SBI)
 - These changes stemmed from a discussion at the March First Coast TIM Team Meeting, where it was acknowledged that increased incident durations times can be attributed in either of these scenarios and the previous categories did not accurately reflect this.

Open Forum

- The new Road Rangers building should be completed within the next few months.
- The current Road Ranger contract was renewed, and the D2 Road Rangers will remain with the same vendor until 2031.

Announcements

- The next Alachua/Bradford TIM Team meeting will be held on **Wednesday, June 12th, 2024**, at 10 A.M. and will be held at the Gainesville Operations Office (5301 NE 39th Avenue).
- If anyone needs anything or has any questions, please contact Dee Dee Crews at DeeDee.Crews@dot.state.fl.us or (904) 903-2009.

MEETING ADJOURNED

MISSION: The Florida Department of Transportation District 2 Traffic Incident Management Teams through partnering efforts strive to continuously reduce incident scene clearance times to deter congestion and improve safety. The Teams' objective is to exceed the Open Roads Policy thus ensuring mobility, economic prosperity, and quality of life.

VISION: Through cooperation, communication and training the Teams intend to reduce incident scene clearance times by 10% each year.
